Markdown Cheat Sheet

A quick reference guide for mastering Markdown

Core Markdown Syntax

Element	Syntax	Example
Heading	# H1	# Title
Bold	**bold**	**bold**
Italic	*italic*	*italic*
List	- item	- First item
Link	[title](url)	[Google](https://google.com)
Image	![alt](img.jpg)	![Logo](logo.png)
Code	`inline`	`code`
Blockquote	> quote	> Markdown is great!
Task	- [x] Task	- [ ] To Do
Table		A	B			A	B	C	
Footnote	[^1]: Footnote	[^1]

Pro Tips

- Use <details><summary>Toggle</summary> for collapsible content

- GitHub-Flavored Markdown supports task lists, tables, and more

- Embed HTML (e.g., video iframes or custom styling)

- Use language tags for syntax highlighting in code blocks (e.g., ```js)

Recommended Tools & Editors

- Desktop: VS Code, Typora, Obsidian

- Web-based: Dillinger.io, StackEdit.io, HackMD

- Note-taking: Notion, Bear, Joplin

Accessibility Tips

- Use descriptive alt text for all images

- Avoid 'click here' - use meaningful link text

- Follow a logical heading hierarchy for screen readers
